Total attendance during the year.....	225
Ladies in attendance.....	92
Gentlemen in attendance.....	133

COURSES OF INSTRUCTION.

ACADEMIC DEPARTMENT.

THIS department affords thorough preparation for college, for business and for the profession of teaching; and comprises four courses, each requiring three years for its completion. The Classical, Latin-Scientific and Scientific courses are preparatory to the corresponding courses in college. The English course is especially designed for those students who do not contemplate a college course, but who wish to prepare themselves for a business life, or for the *profession of teaching*.

Classical Course.

JUNIOR YEAR.

FIRST TERM.—Latin, Grammar and Lessons; Arithmetic, Practical, completed; English Grammar; Descriptive Geography.

SECOND TERM.—Latin, Grammar and Lessons; Arithmetic, Higher; English Grammar, completed, and English Language, begun; Elocution.

THIRD TERM.—Latin, Cæsar, DeBello Gallico; English Language completed; Elocution; Algebra.

MIDDLE YEAR.

FIRST TERM. — Latin, Cæsar, DeBello Gallico and Prose Composition; Greek, Grammar and Lessons; Algebra; United States History, Elementary course.

SECOND TERM.—Latin, Cæsar, DeBello Gallico and Prose Composition; Greek, Grammar and Lessons; Algebra, completed; Rhetoric, with Essays.

THIRD TERM.—Latin, Cicero (orations); Greek, Anabasis; Physical Geography; Bible History.

SENIOR YEAR.

FIRST TERM.—Latin, Cicero, Orations; Greek, Anabasis and Greek Composition; Geometry; Physiology.

SECOND TERM.—Latin, Virgil, Æneid; Greek, Anabasis, and Greek Composition; Geometry completed; English Literature.

THIRD TERM.—Latin, Virgil, Æneid; Greek, Homer, Iliad; Astronomy; English Classics.

Latin-Scientific Course.

JUNIOR YEAR.

Same as in the Classical Course.

MIDDLE YEAR.

FIRST TERM.—Latin, Cæsar, DeBello Gallico and Prose Composition; Algebra, Physical Geography; United States History.

SECOND TERM.—Latin, Cæsar, DeBello Gallico, Prose Composition; Physics; Algebra; Rhetoric, with Essays.

THIRD TERM.—Latin, Cicero (orations); Physics, completed, twice a week; English History, three times a week; Zoology, and Botany.

SENIOR YEAR.

FIRST TERM.—Latin, Cicero, Orations; German, Grammar and Reader; Geometry; Physiology.

SECOND TERM.—Latin, Virgil, Æneid; German, Grammar and Reader; Geometry completed; English Literature.

THIRD TERM.—Latin, Virgil, Æneid; German, Reader completed, and a German Play; Astronomy; English Classics.

Scientific Course.

JUNIOR YEAR.

FIRST TERM.—Orthography; Descriptive Geography; Penmanship; Arithmetic, practical, completed; Grammar.

SECOND TERM.—Drawing; Grammar, completed, and English Language begun; Elocution; Arithmetic, higher; Letter Writing.

THIRD TERM.—Algebra; English Language completed; Elocution; Drawing; Composition.

MIDDLE YEAR.

FIRST TERM.—Civil Government; United States History; Algebra; Physical Geography.

SECOND TERM.—Political Economy; Physics; Algebra; Rhetoric, with Essays.

THIRD TERM.—Bible History; Physics, completed, twice a week; English History, three times a week; Botany; Zoology.

SENIOR YEAR.

FIRST TERM.—Geology; German, Grammar and Reader; Geometry; Physiology.

SECOND TERM.—Chemistry; German, Grammar and Reader; Geometry completed, English Literature.

THIRD TERM.—Modern History; German, Reader completed and a German Play; Astronomy; English Classics.

English Course.

JUNIOR YEAR.

Same as in the Scientific course.

MIDDLE YEAR.

Same as in the Scientific course.

SENIOR YEAR.

FIRST TERM.—Geology; Psychology; Geometry; Physiology.

SECOND TERM.—Chemistry; Moral Philosophy; Geometry completed; English Literature.

THIRD TERM.—Modern History; International Law; Astronomy; English Classics.

COLLEGIATE DEPARTMENT.

Classical Course.

FRESHMAN YEAR.

First Term.—Latin, De Amicitia and Livy. Greek, Lysias. Mathematics, Trigonometry. Anglo-Saxon.

Second Term.—Latin, Livy; Roman History. Greek, Thucydides. Mathematics, University Algebra. Chaucer and Spencer.

Third Term.—Latin, Quintilian. Greek, Odyssey. Mathematics, Surveying and Navigation. English speeches throughout the year.

SOPHOMORE YEAR.

First Term.—Latin, Horace. Greek, Herodotus. Mathematics, General Geometry.

Second Term.—Latin, Horace. Greek, Demosthenes (De Corona). Mathematics, General Geometry and Calculus. English Literature.

Third Term.—Latin, Tacitus. Greek, Sophocles. Mathematics, Calculus. Rhetoric. Essays throughout the year.

JUNIOR YEAR.

First Term.—Latin, Juvenal or Plautus. French or German. Physics.

Second Term.—Greek, Æschylus. History of Civilization. French or German. Physics.

Third Term.—Geology. French or German. Physics. Debates throughout the year.

SENIOR YEAR.

(REQUIRED STUDIES.)

First Term.—Metaphysics. Chemistry.

Second Term.—Logic. Ethics.

Third Term.—Evidences of Christianity. Natural Theology.

ELECTIVE STUDIES.

First Term.—English Masterpieces, Political Economy, English Constitutional History, Latin, Greek, Geology, French, German.

Second Term.—Astronomy, Political Economy, Chemistry, Analytical Chemistry, English Masterpieces, French, German, English Constitutional History, International Law, Latin, Greek.

Third Term.—Shakespeare, Analytical Chemistry, American Constitutional History, French, German, Latin, Greek.

(Students will select enough from these to make three full studies.)

Latin-Scientific Course.

FRESHMAN YEAR.

First Term.—De Amicitia and Livy. German, Gœthe's Iphigenie auf Tauris. German Lyrics. Mathematics, University Algebra. Anglo-Saxon.

Second Term.—Latin, Livy. Roman History. German, Schiller and Lessing. Mathematics, University Algebra. Chaucer and Spencer.

Third Term.—Latin, Quintilian. German, Literaturgeschichte; translation into German. Mathematics, Trigonometry. History of English Language. English speeches throughout the year.

SOPHOMORE YEAR.

First Term.—Latin, Horace. Zoology, Mathematics, General Geometry.

Second Term.—Latin, Horace. French, Grammar and Reader. Mathematics, General Geometry and Calculus. English Literature.

Third Term.—Latin, Tacitus. French, Grammar, Reader and Composition. Mathematics, Calculus. Rhetoric. Essays throughout the year.

JUNIOR YEAR.

First Term.—Latin (Juvenal or Plautus), or Surveying. French, La Fontaine, Racine, Composition. Physics.

Second Term.—French, Brachet's Grammaire Francaise; Corneille; Composition. History of Civilization. Meteorology. Physics.

Third Term.—French, Moliere, Victor Hugo. Geology, Physics. Debates throughout the year.

SENIOR YEAR.

(REQUIRED STUDIES.)

First Term.—Metaphysics. Chemistry.

Second Term.—Logic. Ethics. Elective studies same as in Classical course, with the exception of Greek.

Third Term.—Evidences of Christianity. Natural Theology.

(Elective studies same as in Classical course, with the exception of Greek.)

Scientific Course.

FRESHMAN YEAR.

First Term.—Biology. German, Gœthe's Iphigenie auf Tauris; German Lyrics. Mathematics, University Algebra. Anglo-Saxon.

Second Term.—Geometrical Drawing. German, Schi'ller and Lessing. Mathematics, University Algebra. Chaucer and Spencer.

Third Term.—Structural Botany. German, Literaturgeschichte and Translation into German. Mathematics, Trigonometry. History of English Language. English speeches throughout the year.

SOPHOMORE YEAR.

First Term.—Comparative Physiology, Zoology, Mathematics—General Geometry.

Second Term.—French, Grammar and Reader. Mathematics, General Geometry and Calculus. Mineralogy. English Literature.

Third Term.—French, Grammar, Reader and Composition. Mathematics, Calculus. Mineralogy. Rhetoric. Essays throughout the year.

JUNIOR YEAR.

First Term.—French, La Fontaine, Racine, Composition. Mathematics, Surveying. Physics.

Second Term.—French, Brachet's Grammaire Francaise; Corneille, Composition. History of Civilization. Meteorology. Physics.

Third Term.—French, Moliere; Victor Hugo. Geology. Physics. Debates throughout the year.

SENIOR YEAR.

(REQUIRED STUDIES.)

First Term.—Metaphysics, Chemistry.

Second Term.—Logic. Ethics.

Third Term.—Evidences of Christianity. Natural Theology.

Elective studies same as in Classical course, with the exception of Latin and Greek.

COMMERCIAL DEPARTMENT.

THIS department has been in operation for eight years, and although its growth has not been as rapid as that of some schools, it has sent out many who are filling positions of responsibility and trust. It furnishes excellent facilities for such as desire to fit themselves for mercantile pursuits.

The Plan

Of the work is fully up with the times. It is conducted on the actual business plan, which is recognized by all as most nearly approaching the real work. We feel confident that those completing this course will be able to take a position in

any bank or store, and fill it acceptably. They have practice as well as theory. The Hall occupied by this department is fitted up, and supplied with all the convenience afforded by any exclusively business college.

No Examination

Is required upon entering the course, as classes will be found suited to the grade of the student. The course comprises

Book-keeping.

The student enters first upon the theoretical or text-book work. Here he becomes familiar with Day-book and Journal Entries, opening and closing the Ledger, taking inventories, making up profit and loss accounts, taking trial balances and balance sheets. He also becomes familiar with notes, drafts, bills of exchange, and all forms of commercial paper, and with the forms of books as used in Retail, Wholesale, Lumbering, Farming, Railroading, Manufacturing, Commission and Banking. On completing the theoretical work the student enters the

Practical Department.

Here manuscript work is furnished. The student being furnished with merchandise stock, and College currency, follows the instructions of the manuscript, keeping his own books, buying and selling, making out notes, drafts, receipts, orders, deeds, mortgages and becoming perfectly familiar with all forms of mercantile paper. All work is carefully inspected and criticised. He then passes into office work where a regular set of books is furnished, as kept in Real Estate, Railroad, Insurance, Commission, Jobbing and Importing Offices, Wholesale and Retail, and Emporiums, remaining long enough in each office to become thoroughly acquainted with the work. The books are to be kept one week at least, and closed by each student. From the office he enters the bank, where he performs the duties of Receiving and Paying Teller, Discount Clerk, Cashier, Book-keeper, Collection Clerk; deals in Bank Stock, Railroad Stock, Discounts, Bills and Foreign Exchange, and performs a regular banking business.

Commercial Law.

Closely connected with Book-keeping is the law governing all mercantile transactions. In this, the law governing Contracts, Commercial Paper, Agency, Partnership, Brokerage, Interest and Usury, Insurance, and Transfers of Real Estate are taught.

Commercial Arithmetic.

The importance of this branch is readily seen. Besides a thorough knowledge of Business Arithmetic being required, the student receives drill in Rapid Calculations so that he may be able to do his work readily, and accurately.

Penmanship.

In this day, with its advantages for good writing, no one is excused for being a poor writer. Especially is this so with Book-keepers. Special pains are taken to have the students acquire a good, plain hand-writing.

Business Correspondence.

Although of great benefit in every vocation in life, Letter Writing is almost entirely neglected in many schools. With us the student is required to give special attention to both Letter Writing and Composition.

Business Forms.

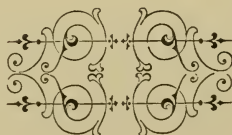

In this class the student is made familiar with all the forms of Commercial Paper, such as *notes, drafts, receipts, checks, bills, deeds, leases, mortgages*, etc.

Grammar and Orthography.

A letter poorly composed and having many misspelled words, detracts from the qualifications of the composer as a business man. We aim to give such drill in these branches, as will enable the student to be correct in his spelling and easy in his composition. Although we do not guarantee situations to those completing the course, we do all we can for worthy students. We take it that any student can secure any situation desired if proper preparation be made. When one is qualified, the position is almost invariably in waiting.

EXPENSES.—In most Business Colleges the tuition alone is from \$25.00 to \$50.00 per term; here the regular tuition (\$10 for either Fall or Spring Term and \$13 for Winter Term), admitting one to the other departments, also admits him to this course. The expenses in this course for Inks, Pens, Paper, Rulers, Blank Books, use of Text Book for two terms, are \$5.25. On entering the Actual Business Department, a fee of \$3.00 is charged to defray the expenses of books, graduation fee, etc.

The above includes all the expenses necessary for graduation. We feel confident in saying to any young lady or gentleman desiring a complete business education that we offer inducements equal to any other school in the land.

GENERAL INFORMATION.

Special Notice.

Students will save trouble and money, if, upon arrival at Mt. Morris, they will leave their baggage at the depot, and go directly to the Principal's office, room 9, second floor of main building. Make no arrangements with any one for anything before you reach the office. We are known to many and you can hold us responsible. If, after you have been to the office, you prefer to look for others, we shall cheerfully direct you to responsible parties.

Literary Societies.

Two spacious halls are set apart for the Philorhetorian and Amphictyon Literary Societies, which meet weekly. Students are encouraged to join one or the other of these associations, as they afford valuable aid in composition, debating, parliamentary rules, etc. The "*House of Lords*" is modeled after the English Parliament. These societies, the management of which is entrusted to the students, are under the supervision of the Faculty.

Library.

The Cassel Library, consisting of over 25,000 volumes of books and pamphlets, is accessible to all. It comprises three departments: one of books for Sabbath reading, one of books for reference, and a third of miscellaneous books.

Reading Room.

The Reading Room is used in connection with the Library. It is supplied with many choice periodicals which treat of the affairs of the day, science, religion, and the home circle. It is open to all the students free of charge.

Literary Culture.

As the food which is taken into the human system is of no value unless it be properly digested and absorbed, so the different studies and exercises of the school will be taken in vain, unless they be made part of the mental fabric, and worked out through *written* and *oral communication*. To meet these demands, *Letter Writing*, including drills in all that pertains to communications of *Friendship*, *Recommendations*, *Notes of Invitation*, together with abundant exercises in capitals, spelling, punctuation, abbreviations, and the common faults and violations of style, is introduced at the opening of each term. Next follows the *Composition* class. Here students are taught to arrange their thoughts on different subjects, in an easy and natural manner. Grammar is thus made practical, and the student drilled in the power of expression. Following these drills come the classes in English Language, Rhetoric and English Literature, which give more extensive practice in the higher departments of literary work.

Instruction

In Instrumental Music and Painting given by efficient instructors at very reasonable rates. Penmanship, Industrial Drawing, Vocal Music, Elocution, Composition and Letter Writing *free to all*.

Special Features.

(*a*)—Thoroughness; (*b*)—cheap, yet good board and well furnished rooms; (*c*)—the sick are well cared for; (*d*)—the moral and religious interests of the student are carefully guarded; (*e*)—both teachers and students are kind and sociable.

Students may enter at any time. Any one taking the year plan, on leaving, can have his board and tuition refunded by paying short rates for time in attendance, but room rent is not refunded until the room is re-rented.

Incorrigible students will be dismissed privately, and will forfeit all they have paid in advance.

Work, not *Wealth*, is our standard. *Plain Living*, *Plain Dressing*, *Good Habits*, the watchwords.

Economy is at a premium here, and pervading the entire *School* and *Home* is that Christian spirit of *Modesty*, which puts all stylish strut and foppish superfluity at a *heavy discount*.

Love for the *good old home*, however humble, and for the dear *mother* and *father*, however plain, are taught by precept and example.

Special Requests.

On Commencement occasions the Senior Class, at graduation, will be expected to dispense with jewelry, and appear in such neat but inexpensive attire as *proper economy* and good taste may suggest.

Parents are earnestly requested to have their children keep a strict account of their expenditures and forward it to them at stated periods.

Every article which will pass into the laundry should be marked with the full name.

Students should bring—(*a*) a Bible,—(*b*) their school books for reference, if not used in the course,—(*c*) a pair of blankets for cold weather,—(*d*) a knife, fork and spoon for use in case of sickness,—(*e*) if members of the church of the Brethren, bring a letter of membership.

Students should *not* bring—(*a*) revolvers, or other weapons, as there is neither use nor room for them here—(*b*) cards, dice, etc., the use of which is positively forbidden—(*c*) the violin and kindred instruments, which, on account of their influences, cannot be used in the building—(*d*) tobacco, the use of which is strictly forbidden on the school premises.

Reports.

A daily record of standing is kept. This, together with the monthly examinations, determines the standing of the student. A card containing the grade in each study pursued, and in attendance, deportment, Bible-reading and church attendance, is sent at the close of each month to the parents or guardian of the student. If of age, the card is given to the student. Should parents not receive a report at the end of each month, they should write to the Principal at once.

Expenses.

Both the character and the scholarship of students may be grievously injured by a free indulgence in the use of money. Whatever is furnished beyond a moderate supply for ordinary expenses, exposes the student to temptations, and endangers, rather than increases his happiness and respectability.

Culture.

The aims in every study, every recitation, every arrangement in our daily work, are, (a) to succeed in business, (b) to secure a home and make it attractive, (c) to become good citizens, (d) to develop the habit of doing good to all men,—all on the Bible plan, and thus attain to true manhood and womanhood.

The Rooms

Are furnished with carpet, bedstead, pillows, pillow-slips, sheets, comforter, table, chairs, wash-stand, wash-bowl and pitcher, mirror, bucket, etc. Each student should bring a comforter and a pair of blankets.

Our Dining Hall

Board is not only very popular, but is preferred by many of our wealthiest pupils because of its nutritious and healthful simplicity, as compared with a more luxurious diet. In all cases where money has been paid in advance and the board not satisfactory, we refund the money for time not used.

Deposit Your Money.

Better deposit what money you will not need immediately, with our cashier, who will give a "*deposit ticket*" for it, on which you can draw it out again when you need it. We urge this precaution especially upon the young lady or gentleman who confidently claims, "I can take care of myself."

A Great Mistake

Is often made by parents in supposing that because their sons and daughters are quite young, they can learn very much yet in the district school. They are not aware that in many cases a mass of rubbish is piled up which must be removed before any true education can begin. It is much cheaper and better in the end to send to a good school at first and have a good foundation laid for all time to come. If a cabinet maker spoils a board in making a table or chair, another can be supplied. Not so with the soul. Every mistake, every wrong step, leaves a scar, a defect, perhaps never to be eradicated. Parents should remember this.

Deportment.

On entering, a student shall receive a copy of the Rules and Regulations, instructing him in the customs of the institution, and by his enrollment and attendance he accepts them as his rules of conduct.

Students must not expect diplomas based on scholarship alone; they are liable to rejection on the score of character. Students are put on their honor to obey the regulations of this school.

It is expected that ladies and gentlemen will treat each other with politeness and courteous civilities; but whenever they transcend the proprieties of refined society, they are liable to dismissal.

Location, Etc.

Mount Morris is a quiet town, about one hundred miles west of Chicago, on the Chicago & Iowa R. R. It is free from saloons, and surrounded by a beautiful country with a generous and intelligent people. The School Building and Boarding Hall are large and commodious, situated on an eminence overlooking the town and surrounding country. The Campus, containing six and one-half acres, is beautifully ornamented by a variety of shade trees.

Access.

Students from the east, on their arrival at Chicago, will take the C. B. & Q. R. to Aurora, then C. & I. to Mt. Morris. Those coming from the west on the C. B. & Q., also change at Aurora as above. Those coming on the Illinois Central R. R. should come to Forreston, then on the C. & I. to Mt. Morris. Before coming, students should write us concerning the purchase of their railroad tickets.

The Objects of the School

Are to afford young people literary, moral and religious instruction; inculcate habits of punctuality and self-control, and develop a character that will lead to a life of usefulness.

Not a Reformatory.

While all are most cordially invited to come and share the benefits of our school and its reforming and Christianizing influences, young men who have contracted habits of idleness, profanity and drinking, must abandon such habits if they wish to remain in the school.

Things Prohibited.

(a)—Visiting immoral places; (b)—the use of tobacco on college premises; (c)—the use of intoxicants; (d)—playing cards; (e)—use of profane or obscene language; (f)—visiting during study hours; (g)—gentlemen visiting ladies' hall, or ladies visiting gentlemen's hall; (h)—noisy, disorderly, or unseemly conduct of any description; (i)—revolvers, metallic knuckles, or weapons of any kind; (j)—wearing of jewelry.

Satisfaction.

We guarantee satisfaction in instruction or refund *all* tuition. Any student who proves insubordinate, vicious or idle, may be dismissed at any time and shall forfeit all right to the amount paid for current term; nor can he be re-admitted, save by the consent of the faculty.

Dissatisfaction.

Should any misunderstanding or dissatisfaction arise on the part of the student, parents and guardians are requested to state the matter freely to the Principal, that, if a mistake has occurred, it may be righted.

Sabbath.

All students are required to attend church and Sabbath-school in the College Chapel, unless otherwise directed by parents or guardians.

Recitations.

School exercises are held on each day of the week except Saturday and Sunday. Recitations occupy fifty minutes each.

What to Study.

How many studies and drills can I take? About *three full studies and two drills* will be enough work for the ordinary student. If some of the studies are reviews, one more may be added. Students are cautioned against taking too much. Ambition to do more than is possible in a short time, frequently results in a failure to accomplish what is possible.

The members of the faculty take pleasure in advising students with reference to their work, and students always discover, sooner or later, that they can save money and time, and avoid confusion and worry, by availing themselves of the advice of those who have already successfully directed the studies and pursuits of so many.

Only One Day.

Better come one day before work begins. If you come earlier than that and have nothing to do, you are liable to become homesick.

Dress.

Since the true idea of dress has more respect to neatness, comfort and health, than to fashion and display, we solicit the co-operation of parents in maintaining a proper consistency in this respect. Students should be provided with sufficient but *plain* clothing, and other necessities. Dress-making should, in all cases, if practicable, be done at home. All extravagance in dress and the wearing of jewelry are considered injurious in every way, and parents are requested to see that their children do not come burdened with these superfluities.

Health.

It is a noteworthy fact that all invalids who come here, almost without exception, improve in health and spirits after the first three or four weeks. There are reasons for this; among which the following may be named: There are no ponds of stagnant water; no swamps of any kind within many miles of Mt. Morris. Hence, no fever and ague; no malarial diseases, unless they are imported, and then they are soon eradicated by the influences of the invigorating atmosphere of this elevated district of country.

Religious.

One of the most prominent features of our school is the effort to impress upon its students the claims and benefits of an exalted morality and a vital religion. Besides the regular weekly preaching, prayer-meetings and Sunday-school services, all the students take part in daily Bible reading. There are also classes in Bible History. These afford rare opportunities for gaining an accurate working knowledge of the Scriptures and of missionary enterprises.

“Students’ Mornings.”

On regular school days, all the students are required to attend chapel. Saturday and Sunday mornings are known as “Students’ Mornings.” Attendance on these mornings is voluntary. The students select the Scripture, the songs and lead in prayer. That they find these voluntary chapel exercises enjoyable and profitable, is shown by the increased attendance of this year over last year, a number having been present at *every service during the year*.

Bible Instruction.

Past experience has proved that the Bible should be a regular text book in our school. There is a growing demand for *what the Bible says* instead of *what men say about the Bible*. To meet this growing demand, the Bible must be *the* text book, and the study of it properly systematized.

The lack of reverence which many have for the Word of God is due to the very limited knowledge they have of it; and the reason why so many readers of the Bible know so little about its contents, is because they pursue no definite plan in their reading. If young people were properly assisted in the study of the Bible, they would develop a taste for Scripture reading that would lead them to reverence God's Word, and prize the Bible above every other book.

In the coming year there will be at least two classes in Bible instruction. The year's work of the class studying the Old Testament, will complete Genesis, Job, Exodus, Leviticus, Numbers, Deuteronomy, Joshua, Judges, Ruth, and 1st and 2nd Samuel. The New Testament class will complete Matthew, Mark, Luke, John and the Harmony of the Gospels. This includes all the historical books of the Old Testament, together with all the historic information gleaned from the other sacred books.

The purpose of our work is to assist young men and women to extend their knowledge of the Scriptures and prepare them for usefulness in both Church and Sunday-school work.

METHODS OF INSTRUCTION.

1. By Lectures, which are followed by Recitations, in which the entire matter of the Lecture is reproduced by the student.
2. Books are divided into Parts, Sections and Paragraphs. After each paragraph a number of questions is put to bring out in full the contents of the paragraph.
3. Special attention is given to Geography, Chronology and Topography.
4. The student is required to have some Bible Geography, to which he may refer; and in the recitation room maps are placed to fully familiarize the student with the Bible lands.
5. The "Law of Moses" is systematically studied. This is important, because many passages in the later books of the Bible are made familiar by such study.

Correspondence pertaining to Bible work solicited by the Instructor of this department.

The Sunday-School Normal Class.

Immediately after the Sunday morning chapel exercises, follows the weekly lesson of the Sunday-school Normal Class. This class was organized at the beginning of the current year, for the benefit of those who desire training as Sunday-school workers. It has been well attended by both members of the church and those who are not members; and we are fully convinced of its utility as well as of its necessity.

Expenses.

Tuition, Fall or Spring Term (12 weeks)	\$ 10 00
Tuition, Winter Term, (16 weeks)	13 00
Good Board, Furnished Room and Tuition for Fall or Spring Term	40 00
Good Board, Furnished Room and Tuition for Winter Term.....	53 00
Per week, board, \$2.10; room, 50 cents; tuition, \$1.00	3 60

(Fuel and Holiday Vacation Board are not included in the above.)

A discount of 10 per cent will be made from the above *term rates* to students who pay the year's expenses in advance. Thus: Fall Term, \$40; Winter Term, \$53; Spring Term, \$40; total, \$133. Ten per cent of \$133 is \$13.30, which deducted, leaves the year's (40 weeks) expenses for board, furnished room and tuition, \$119.70. This reduction made on the board for *year* students, reduces the board to \$1.66 per week, as may be seen by the following:—

Tuition, fall term, \$10; winter term, \$13; spring term, \$10; total, \$33. Room rent (40 weeks) \$20; the year's expenses, \$119.70, less \$53 for tuition and room rent, equals \$66.70, cost of board for 40 weeks; or \$1.66 per week.

This is cheaper than boarding in clubs. It is also true that by paying in advance for the year, \$119.70, thereby securing the benefit of the \$13.30 discount, 12 per cent interest per annum will be realized for the money paid. Hence the advantage of paying for the year in advance.

In case of sickness the student pays at term or week rates, as the case may be, for the time he has been here, and all the balance will be refunded. No deduction on account of sickness will be made for less than two weeks' absence,

A WORD FROM THE CITIZENS.

WE, the undersigned citizens of Mt. Morris, desire, in an emphatic manner, to express the sentiments of regard and respect which we entertain for the students and teachers of Mt. Morris College. We are honored in having so many worthy young ladies and gentlemen from all parts of the country come to make their school-home with us. We welcome them most heartily to our quiet town, to our homes, and to our flourishing churches. We congratulate them upon their good fortune in being able to enjoy the superior educational facilities and constantly growing excellence of the school in our midst; and we take pleasure in testifying to the studious habits and exemplary moral and Christian character of the students. While we are confident that the young ladies and gentlemen, who come to Mt. Morris to attend school, will attain such success and receive such inspiration from their instructors as will enable them to leave with noble aspirations and thorough qualifications for usefulness in life, we also desire that they may carry with them such pleasant memories not only of the "Old Sandstone," but of Mt. Morris and its citizens as will cause them frequently to revisit the happy scenes of their school-life, and induce many others to seek the same privileges and to honor us with their presence and acquaintance.
